Hogs—Receipts small: shipments none. The week opens with the market on the up grade, to-day's quotations being an even dime higher than on Saturday. Very strong conditions exist, the local demand being much in excess of the supply. No one grade has the best of the call, and the result is that the margin between light and heavy hogs continues just about the same as it has been for some time. The few offered were promptly disposed of, the market closing strong at quotations:

STOCKS DULL AND LOWER

MONETARY SITUATION AN INCREAS-ING INCUBUS ON THE MARKET.

Few Spasmodic Spots of Strength Have No General Effect-Pending New Issues of Securities.

NEW YORK, March 2.- The closing rally in stocks on Saturday had some slight in-Pr. No. Av. Pr. 853 \$3.00 2.75 3 Cutters......1040 3.00 fluence on the dealings to-day, but the advance was insignificant, and the market soon relapsed into dullness and neglect and a slow downward movement. The decrease in net earnings for January reported by St. Paul was an unfavorable influence, although it was sought to explain it by the high price for fuel which had to be paid. Hogs-Receipts, 2,660; shipments, 800. The re-Amalgamated Copper showed some strength ceipts of hogs were larger than a week ago and nearly three times as larger than a week ago and nearly three times as large as a year ago. The quality generally was fully equal to the standard of the past few days, and possibly a shade better than last Saturday, so far as the heavy grades were concerned. The market opened with owing to the further advance in the metal both here and in London, and in Pennsylvania there was some resistance to the depression. Late in the day again the unexall buyers in the field, and with rather favorable plained advance in Manhattan induced some reports from other places there was considerable reports from other places there was considerable animation in the bidding, and with good competition between packers and shippers the offerings were soon changing hands at unevenly higher prices. There was some difference of opinion as to the extent of the advance, but in a general way sales appeared to be about 10c highr than the close of last week. It is probable that some did not sell to exceed 5c higher, and others were possibly 15c higher than Saturday. It did not take long to exhaust the small supply, and recovery in prices, but the closing was unsteady and very dull.

The money situation continues to weigh on the market, and the professional traders made the varying rumors regarding the chance of the Aldrich financial bill the nominal motive of their operations. The weight of the day's rumors inclined against the bill's chances, and this was assigned as a cause of the declines. There was no money to loan on time in Wall street at less than 5 per cent. to-day, and many lenders were not willing to accommodate any but their regular customers. The ruling rate for call money was 3% per cent. Some relief was afforded by large sales of bankers' bills in the exchange market in the process of borrowing foreign funds. Discounts were easier in London, and there was reported an expectation that the bank rate would be

cheaper money in London will lead to withthose current at the close of last week, and a satisfactory market is expected for the near fu- drawals of French capital. The New York banks have already lost \$2,136,000 to the sub-Good to choice lambs.......\$5.75@6.35 treasury since Friday, and that institution had a credit balance in the clearing house 4.50@5.00 this morning of \$344,370, showing the con-2.50@3.25 tinued decline of funds there. There was rather less pressure, however, on New York from the interior, exchange at Chicago recovering to 20c discount, compared with 40c discount last week. A contraction of bank reserves is normal to this season and is expected to go further. The surplus reserve of \$5.591,900 of the associated banks, disclosed by Saturday's bank statement, is none. Fair to choice butcher stock was strong the lowest for this season since 1890. Last to a shade higher than at the close of last week. with a very fair local demand. All other kinds

week's insignificant contraction in loans leaves that item of the clearing house banks still practically at the highest record ket was a little more satisfactory than it was in their history. It is estimated also that securities lately authorized, but rather more remotely in prospect, run up to over \$200,000,000. Mean-Common to light heifers.

Common to fair bulls.

DEBT AND CIRCULATION.

Monthly Statements by the Treasury and Controller of the Currency.

WASHINGTON, March 2.- The monthly statement of the public debt shows that at the close of business Feb. 28, 1903, the debt, less cash in the treasury, amounted to \$937 .-972,898, which is a decrease as compared with Jan. 31 of \$5,969,665. The debt is recapitulated as follows:

Interest-bearing debt...... \$914,491.420 Debt on which interest has ceased since maturity..... Debt bearing no interest...... 316,744,438\$1,312,516,368

This amount, however, does not include \$884,725,069 in certificates and treasury notes outstanding which are offset by an equal amount of cash on hand held for their redemption. The cash in the treasury is classified as follows:

Trust funds 884,725,069 General fund 158,799,646 In national bank depositories.... 150,552,651 Total\$1,344,077,360 Against which there are demand liabilities outstanding amounting to \$969,533,896,

which leaves a cash balance on hand of The monthly comparative statement of the government receipts and expenditures

shows the total receipts for February, 1903, to have been \$43,028,179 and the expenditures \$37,750,749, leaving a surplus for the month of \$5,277,430, as against \$2,060,449 sur- wheat was quite steady and at times active. plus for February, 1902. The receipts for feeling the strength of corn and the heavy February, 1903, from the several sources of revenue were given as follows: Customs, \$21,197,581, an increase of \$984,000; internal revenue, \$16.016,066, a decrease of \$2,440,000; miscellaneous, \$5,814,531, an increase of \$3,-350,000. The expenditures on account of the War Department show a decrease of nearly \$2,000,000. On account of the Navy Department there is an increase of \$107,009.

Russia's Impressive Warning. Brooklyn Eagle.

The official organ of the Russian government warns the Macedonian revolutionists to go slow. It points out that the Sultan has accepted the plan of reform imposed upon him by Russia and Austria and that time must be allowed to prove whether or not the promises of the Porte are to be ful-filled in good faith. Furthermore, the paper cautions the revolutionary committee to abstain from violence, because an immediate uprising against Turkish authority will receive no countenance in St. Peterstle doubt that the opportune concessions made by the Sultan have preserved the peace of Europe for the time being. It is scarcely conceivable, after the warning given to them, that the Macedonian malcontents will persist in defying the wishes of the governments without whose assistance any battle with the Turk would be a criminal sacrifice of life and a useless expenditure of effort. The Sultan has started off well by taking steps to officer the Mace-donian gendarmerie with foreigners of Christian birth and he should at least have an opportunity to show whether he is sincere in his announced intention to behave better in the future. The Russian warning to Macedonia comes in good time.

Addicksian Eloquence.

George Kennan charged publicly that the corruption of the Delaware electorate and of Delaware legislators was effected in two days: (1) By purchase; (2) by the services of immoral women. The Addicks contingent excitedly deny the second charge and challenge the production of proof. As to charge number one they say nothing. Their silence on this point is more eloquent than their

CORN RULES THE MARKET

ADDS A GOOD FRACTION TO THE PRICE AND HELPS WHEAT.

Oats Lower on a Lack of Demand for Spot-Hog Products Are Strong and Close at Advances.

CHICAGO, March 2.-The strength in corn was again a predominating influence in the grain pits to-day and both wheat and corn ruled strong. May wheat closing 18614c higher and corn 3614c higher. Oats were 1/sc lower and provisions from 5c to

There was only a light trade in wheat, out the market was firm throughout with the exception of an easier feeling at the start, influenced by lower cables and favorable weather, which caused May to open down 1/8@1/4c at 771/4c. The strength in corn and a larger decrease in the visible supply than had been expected soon created a firmer feeling, and May sold up to 77%c. At the advance there was considerable realizing and with small celarances and almost an entire lack of foreign demand the price eased off a trifle, but rallied again toward the close on good commission house demand, with rather light offerings, and final figures were 1/401/4c higher at 771/2077%c. Clearances of wheat and flour were equal to 310,000 bu and the amount on passage increased 1,652,000 bu. Primary receipts were 566,000 bu, against 561,000 a year ago. Minneapolis and Duluth reported receipts of 437 cars, which, with local receipts

of 26 cars, one of contract grade, made a total of 463 cars, against 502 a year ago. Trading in corn was active and prices had an upward tendency. The demand was quite general, but the larger portion of the offerings were taken by shorts, who were much disturbed at the smallness of the contract supplies. The main bull factors were immense clearances, over a million bushels, a fair decrease in the visible supply and good cash and export demand, while favorable weather was the only bear feature in the situation. May closed %@½c higher at 47%@47½c, after ranging between 46%c and 47%c. Receipts were 357 cars, none of contract grade.

Oats were dull and the volume of business was light. The strength in corn brought improved weather and a poor cash demand tended to discourage bullish sentiment. The market closed slightly under Saturday's prices, May off 1/3c at 35%c, after selling between 351/4c and 35%c. Receipts were 226

Provisions ruled active and strong, open-ing prices being higher on a smaller run of hogs and an advance of 10c to 15c in prices at the yards. A good demand from packers and shorts added to the early strength and prices were well maintained, the close on May pork being up 20c at \$18.20. Lard was 12½c higher at \$9.75, with ribs up

LOCAL WHOLESALE TRADE

BUSINESS GOOD IN NEARLY ALL THE LEADING LINES.

Dry Goods and Groceries Move Freely -Poultry Continues High, but Eggs Are Weak-Grain Market Easier.

The cheerful sun and milder temperature arted new life to trade yesterday. The dry goods houses had one of the best days of the present year, the tendency to an ading retail dealers to stock up quite freely. Orders brought in by traveling salesmen Corn-Receipts, 92,000 bu; exports, 50,483 last week and mail orders were plentiful. Buyers also came in in goodly numbers. Wholesale groceries also showed an increase in business yesterday. Since the reduction in quotations for canned tomatoes the demand has increased somewhat. Wholesale prices have got down to a point which allows retailers to sell tomatoes at 10 cents a can with profit, and the interest is turning from corn to tomatoes. Other lines of canned goods are moving fairly row it was a very fair Monday. Local retail grocers stocked up, market men got ready for Tuesday's market, and outside retail merchants were quite liberal buyers. Produce merchants are fairly busy. Fresh eggs are becoming more plentiful, and holders of storage eggs are gradually giving way under these conditions. Poultry maintains the firm position it has held for weeks, and there are no indications of an early break. Cheese moves freely at unusually high figures. Butter, with the milder weather, is coming in more freely, but prices on choice stock are well held. The provision market carries a strong tone

Indianapolis Grain Market.

and is fairly active. In other lines there is

nothing calling for special note.

The local grain market was in much the same condition as on Saturday. Receipts were not large, neither were prices very tent, lower figures may be looked for on corn and hay. Track bids as reported by the secretary of the Board of Trade ruled as follows: Wheat steady; No. 2 red, 764c track; No.
